Wow... it sure does! @DavidRWatson2 Listen to this. I wonder if this is based on the same / similar chord progression. You had mentioned that Stones was built on a common framework, once long ago. I'd love to see if they could be played together. :)

Lots of American folk and country music is based on standard chord progressions. I've come to the conclusion that the Scots and Irish only have about 20 actual tunes between them. They just re-arrange the words. lol

Bilbo's "The Road goes ever On" can be sung to the tune "The Parting Bowl." Scans beautifully. Everything is connected... lol

Because of course Tolkien used common english folk tune/poem rhyme and scan systems for his 'English' mythology.
